```
17/72 GTPase binding
                                                   < 0.05
36/216 enzyme binding
13/34 molecular adaptor
28/171 ligase
28/131 ligase, forming carbon-nitrogen bonds
47/303 molecular transducer
```

12/38 primary active transmembrane transporter
